## ABOUT THE PLAY

It is the story of three suburban couples. The Fosters, well off, successful with social aspirations: The Phillips (Bob works for Frank) who live in somewhat down market circumstances.

The set plays an important role in the play, being at one and the same, both the Fosters stylish abode as well as the Phillips untidy tip.

Enter The Featherstones (William is a new recruit to Frank's department) who are invited to dinner by BOTH the Fosters and the Phillips on consecutive nights.
